FIRE INSURANCE NOTICES, &c. SOUTHERN PROTECTION INSURANCE COMPANY, ALEXANDRIA, VIRGINIA. CAPITAL OVER 350,000 DOLLARS,

AND CONSTANTLY INCREASING. The Charter of this Company offers more favorable advantages to the farmer and others, than any Company chartered in the State, by insuring with or without a premium note. If the applicant prefer, he can pay the full amount of the premium in cash, or by effecting a cash insurance for two years, the insured saves one-eighth of the amount he would otherwise have to pay; or by becoming a member, and giving a small premium note, the insured saves nearly one-half of the amount charged by Stock Companies, when insuring from year to year. This is the advantage resulting from the J. W. BURKE.

combination of the CASH AND MUTUAL PRINCIPLE. This Company commenced issuing Policies against loss or damage by fire, on the 13th day of March, 1854, since which time over seven thousand seven hundred persons have insured and become members of the Company, and over seventy thousand dollars have been paid for losses. Having increased our business during the past year, we feel grateful for the liberal patronage bestowed upon the Company thus far, and for its flattering prospeets of future usefulness. The Directors hope and believe, that, by prudence, caution, and a rigid system of economy, they will establish for this Company a reputation for cheapness and safety not surpassed by any Company in the U. States. All differences in settlement of losses, may be determined by three disinterested arbitrators of the County where such loss happened, to be mutually chosen by the insured and the Company.

about Empresses are given by the New York Post. The Empress of Austria is so unwell that her physicians have declared that she must spend the winter in the Island of Maderia, and a messenger has already been sent there to make preparations for her arrival. It was thought that the rude climate of Vienna, and the dust resulting from the demolition of buildings, caused by the openning of new streets, would be more than the lady could stand this winter. She was to leave Vienna on the 19th of October, on her way to Belgium. At Ostend or Antwerp she will embark in an English frigate for the healthgiving island, whither she is bound .-Her sister, the ex-Queen of Naples, and probably the exiled Francis II., will spend the winter with her in Maderia. The Empress of France, they say, looks extremely well in mourning costume, which becomes her delicate frame, and her pensive expression of countenance. She will assume a mourning costume, and with all the French Court, wear it, as a token of respect to the memory of the late Dowager Empress of Russia. All the Empresses now living, are young and handsome women. The one most prominently before the world's eye: is of course, the Empress Eugenie. She was born in 1826, and was thirty-four years old on the 5th of

last May. Her maiden name was Eugenie

Marie de Guzman, Countess of Teba. The

Empress of Austria will be only twenty-three

years old on the 24th of next month. She

was like the ex-Queen of Naples, a Princess

of Bavaria, and her name was Elizabeth

Amelia Eugenie. She was married when

only seventeen years old. The Empress of

Russia is thirty-six years old, and was mar-

ried to the present Emperor, then the Grand

Duke Alexander, when seventeen years ald.

She is a daughter of the Grand Duke of Hesse, and has nearly a dozen names. CASTING A SECTION OF THE STATUE OF FREE. DOM .- On Wednesday last a number of ladies and gentlemen assembled in the foundry of Clark Mills, the American sculptor, to witness the casting in bronze of a part of Crawford's colossal statue of the Goddess of Freedom, intended for the dome of the Capitol. The section was that part of the body of the figure comprising the shoulders and breast, and the arms down to the elbows. Four thousand pounds of metal, composed of one ounce of block tin and half an ounce of zinc to every pound of copper, were put into the furnace, and when melted, caught in two large iron kettles, which were carried by cranes over the mould. The latter had been previously sunk in a pit prepared for the purpose, in order to bring it on a level with the earth en floor of the building. At a given signal the liquid metal was forced out, and fell hissing into the gates of the mould. The section of the statue cast at this time, was the largest piece ever brought out by Mr. Mills, and it proved an entire success. The work upon the whole figure is rapidly approaching to-

weigh, when finished, 17,000 pounds .- Washington Star. Four of the smallest horses in the world were lately taken to Windsor Castle for the purpose to being exhibited to her Majesty and the Prince Consort, which the proprietor had brought from Africa. These diminutive animals were not placed in regular horse boxes, but were standing in a compartment side by side with the grooms to whose charge they were committed. They are entire horses, of perfect symmetry, well matched, being all of a color, dark brown, and the

wards completion, and the statue will

highest of them scarcely 31 inches in height.
